This schedule applies to: Public Hospital Districts

Scope of records retention schedule
This records retention schedule authorizes the destruction/transfer of the public records of Public Hospital Districts relating to the functions of agency management, asset and infrastructure management, financial management, health care and treatment, laboratory and pathology management, patient/client account management, pharmacy, and research. The schedule is to be used in conjunction with the Local Government Common Records Retention Schedule (CORE), which authorizes the destruction/transfer of public records common to all local government agencies.

Disposition of public records
Public records covered by records series within this records retention schedule (regardless of format) must be retained for the minimum retention period as specified in this schedule. Washington State Archives strongly recommends the disposition of public records at the end of their minimum retention period for the efficient and effective management of local resources.

Public records designated as “Archival (Permanent Retention)” must not be destroyed. Records designated as “Archival (Appraisal Required)” must be appraised by the Washington State Archives before disposition. Public records must not be destroyed if they are subject to ongoing or reasonably anticipated litigation. Such public records must be managed in accordance with the agency’s policies and procedures for legal holds. Public records must not be destroyed if they are subject to an existing public records request in accordance with chapter 42.56 RCW. Such public records must be managed in accordance with the agency’s policies and procedures for public records requests.

Revocation of previously issued records retention schedules
All previously approved disposition authorities for records that are covered by this retention schedule are revoked, including those listed in all general and agency unique retention schedules. Local government agencies should take measures to ensure that the retention and disposition of public records is in accordance with current approved records retention schedules.

Authority
This records retention schedule was approved by the Local Records Committee in accordance with RCW 40.14.070 on December 6, 2023.

Includes, but is not limited to:  
• Correspondence between the IRB and investigators/researchers;  
• Progress reports provided to IRB;  
• Reports of unanticipated problems involving risks to subjects or others;  
• Injury reports;  
• Significant new findings provided to subjects.  
*Note: Retention based on 3-year requirement for IRB records relating to completion of research conducted in accordance with 45 CFR 46.115(b).* | **Retain** for 3 years after completion/termination of research  
then  
**Transfer** to Washington State Archives for appraisal and selective retention. | ARCHIVAL (Appraisal Required) ESSENTIAL (for Disaster Recovery) OPR |
GLOSSARY

Appraisal
The process of determining the value and disposition of records based on their administrative, legal, and fiscal use; their evidential and informational or research value; and their relationship to other records.

Archival (Appraisal Required)
Designation for public records that may possess enduring legal and/or historical value and must be appraised by the Archives. Such records are to be evaluated, sampled, and weeded according to archival principles by Archives staff. Records appraised as non-archival may be destroyed after their retention has been met.

Archival (Permanent Retention)
Designation for public records that possess enduring legal and/or historical value and must not be destroyed. State government agencies must transfer these records to the Archives at the end of their minimum retention period. Local government agencies must either transfer these records to the Archives or retain and preserve them according to archival best practice until transferred to the Archives. Other than removing and disposing of duplicates, the Archives will not sample, weed, or otherwise dispose of records with this designation.

Disposition
Actions taken with records when they are no longer required to be retained by an agency. Possible disposition actions include transfer to the Archives and destruction.

Disposition Authority Number (DAN)
Control number for a specific records series in a retention schedule that authorizes a retention period and disposition action for records belonging to that series.

Essential Records
Records needed to respond to, and/or perform critical operations during/after, a disaster or emergency. They need to be protected through backup or enhanced storage. (RCW 40.10.010)

Local Records Committee
Committee established by RCW 40.14.070 to review and approve disposition of local government records through records retention schedules. The Committee’s three members include the State Archivist and one representative each from the Office of the Attorney General and the State Auditor.
Non-Archival
Designation given to public records that do not possess sufficient historical value to be designated as “Archival.” Agencies must retain these records for the minimum retention period specified by the appropriate current records retention schedule. Agencies should destroy these records after their minimum retention period expires, provided the records are not required for litigation, public records requests, or other purposes required by law.

Non-Essential Records
Public records which are not required in order for an agency to resume its core functions following a disaster, as described in chapter 40.10 RCW.

OFM (Office Files and Memoranda)
Public records not defined and classified as official public records in RCW 40.14.010 and other documents or records as determined by the records committee to be office files and memoranda.

OPR (Official Public Records)
Public records necessary to document transactions relating to public property, public finances, and other agency business, or records determined by the records committee to be official public records.

Public Records
Records that have been created or received by any government agency in Washington State in connection with the transaction of public business regardless of physical form or characteristics.

Records Series
A group of records performing a specific function, which is used as a unit, filed as a unit, and may be transferred or destroyed as a unit. A records series may consist of a single type or a number of different types of documents that are filed together to document a specific function.

State Records Committee
Committee established by RCW 40.14.050 to review and approve disposition of state government records. Its four members include the State Archivist and one representative each from the Office of the Attorney General, Office of the State Auditor, and the Office of Financial Management.

SUBJECTS

Public Hospitals Records Retention Schedule
Version 5.3 (December 2023)
### INDEX TO: SUBJECTS

**P**
- parenteral product .......................................................... 59
- contamination testing .........................................................
- patient
  - billing/financial assistance .............................................. 23
  - meals ............................................................................. 34
- property ............................................................................. 21
- releases (radiation) ............................................................... 30
- patient accident/incident reports
  - age 18 and older ............................................................. 37
  - under age 18 .................................................................. 37
- patient medical records
  - age 18 and over .............................................................. 26
  - disclosure authorized ...................................................... 27
  - under age 18 .................................................................. 27
- patient profile and medication records
  - age 18 and over .............................................................. 54
  - under age 18 .................................................................. 55
- patient relations ................................................................ 5
- personnel ............................................................................ see CORE
- persons seeking admission ................................................. 19
- pharmaceutical
  - complaints and investigations ........................................... 59
  - wholesale inventories ...................................................... 57
- pharmacy policy, procedure, and training manuals ............. 60
- physician call schedules ..................................................... 40
- policies/procedures ............................................................. see also CORE
- pharmacies ........................................................................ 60
- prescription
  - drug orders .................................................................... 56
- press releases ..................................................................... see CORE

**Q**
- quality control and assurance
  - blood/tissue banks ......................................................... 50
- non-transfusion services ..................................................... 46
- transfusion services ........................................................... 45

**R**
- radiation
  - doses .............................................................................. 31
  - machine registrations ...................................................... 12
  - safety officer .................................................................... 40
- radiation protection program
  - audits and reviews ........................................................... 38
  - radioactive material
    - acquisition transfer ....................................................... 8
  - radioactive material disposal .......................................... 7
  - radiologic reports ............................................................ 17
  - radiopharmaceutical assays ............................................. 31
  - records management ....................................................... see CORE
- recruitment/hiring .............................................................. see CORE
- referrals
  - outside the agency ......................................................... 22
  - to the agency .................................................................. 22
  - regulated chemical tableting .......................................... 60
  - resident
    - censuses .................................................................... 20
  - releases (radiation) ........................................................... 30

**S**
- schedule V drugs dispensed ................................................. 57
- security ............................................................................. see CORE
- staff development/training ................................................. see CORE
- staff plans/schedules (nursing) ............................................ 40
- standard of care .................................................................. 38
- sterilizer spore tests ........................................................... 13
- strategic plans .................................................................... see CORE
- Strontium-90 (decay) ........................................................... 6
- subject case histories
  - FDA application filed ....................................................... 64
  - FDA application not filed ............................................... 65
- surveys
  - general (radiation protection program) ......................... 32
  - treatment equipment ...................................................... 13

**T**
- teletherapy
  - calibration calculations .................................................... 13
  - five year/source replacement inspections ....................... 13
  - source installation surveys ............................................. 14
- test
  - procedures .................................................................... 46
  - test reports
    - all other services ....................................................... 47
  - test gated dot plots/histograms (cytogenetics) ............... 51
INDEX TO:

SUBJECTS

pathology ......................................................47
transfusion services ......................................48
therapeutically equivalent drug substitution ..........60
training manuals
  pharmacies ..................................................60
transfusion services
  general administration ..................................48
trial drug management
  FDA application approved ..............................62
  FDA application not approved ..........................63

U
uncompensated care
  compliance ..................................................24

V
valuation ........................................................see CORE
vital statistics supporting documentation ..............39

W
work orders ....................................................see CORE
work plans ....................................................see CORE
written directives
  authorizations ............................................33
doses ...........................................................33
  procedures ..................................................33

X
x-ray/electron therapy spot checks ......................14
