

Washington State Library
Library Development Program
Services to Libraries 2006

FFY2006 October 1, 2005 – September 30, 2006

The Washington State Library (WSL) is the only agency in Washington that is specifically designated to assist libraries and to ensure that residents of the entire state have access to library and information services. State Library staff members work in partnership with statewide advisory committees to plan and implement programs, provide training, grants, and consulting services aimed at the development, improvement, and enhancement of all public and non-profit libraries in the state.

General Consulting

Washington State Library staff provides in-depth research and advice for libraries, the public, and government in areas such as: legal and governance issues, development of policies and services, planning, relationships between boards and government officials, board responsibilities and interrelationships, setting up library districts, and other service issues. Staff develops, conducts, and facilitates training events and retreats designed for the specific needs of staff and boards of trustees of individual libraries.

Information Technology (IT) Consulting

Washington State Library staff provides specialized IT consulting services for libraries in network infrastructure, computing hardware and software, the Children's Internet Protection Act (CIPA), and the federal E-rate program qualifying libraries for telecommunications discounts. The State Library's IT consultants take a leadership role in connecting public libraries to the statewide K-20 network, a high-speed data and video network serving educational institutions throughout the state, and centralized Internet filtering for small libraries.
