

# Services to Libraries: 42<sup>nd</sup> Legislative District

The Washington State Library (WSL) ensures that residents of the entire state have access to educational materials, research capabilities and resources that change lives. WSL achieves these goals in part using federal Library Services and Technology Act (LSTA) funds—which are dependent on state funding—to offer consulting services, grants, subsidies, training, and other programs that improve libraries and the lives of the patrons which they serve.

## Awards & Subsidies

WSL provides funding to support local libraries through circulating STEM kits, professional development grants, digital literacy, early literacy programming, cost-sharing of online databases, and 24/7 online reference services.

## Total Funding

 Statewide Library Projects  
 Awards & Subsidies  
 Washington Talking Book & Braille Library  
 Prison & Hospital Libraries

For every \$1 of state funding, the state receives approximately \$1.25 in federal LSTA funding to support libraries.

# \$41,908 to 42<sup>nd</sup> Legislative District libraries

The Washington State Library (WSL) is the only state agency that is specifically designated by law to assist local and regional libraries with library and information services. Below is just one example of how WSL has helped libraries in this district connect with their communities and improve the quality of life for its patrons.

The Washington State Library provided digitization grant awards to two libraries in District 42. The Deming Library used the grant to digitize a private family photo collection documenting the life of early homesteaders on the South Fork Nooksack River. The Sumas Library digitized photos of the dairy industry and early days of this Canadian border town. Each new collection added to the Washington Rural Heritage project enriches citizen access to the history of our state.

Each new collection added to the Washington Rural Heritage project enriches the history of our state.
