

**MOLE**

**MACKENZIE**  
**@A.CORN.ACORN**

have a mole on my chin, and  
fifty years or so I believe  
will have one very long  
ick hair growing out of it

with this  
long chin  
hair I will  
cook food for  
my loved ones

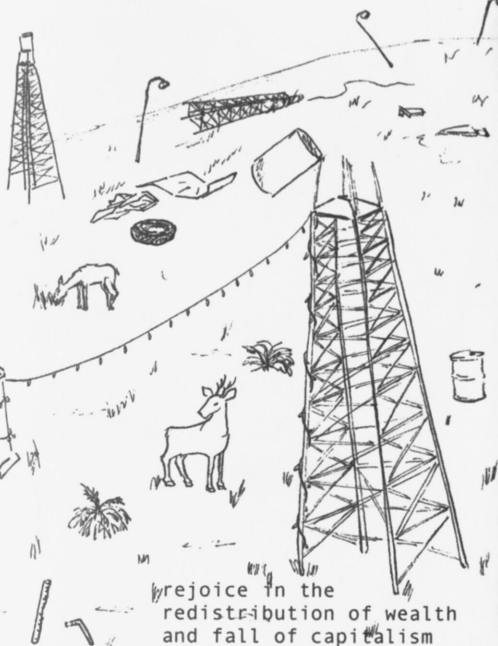

take care  
of birds  
nesting in  
the rafters

tend to my garden

set up for the  
al bbq at the  
doned remnants of  
ionaire space  
ration

rejoice in the  
redistribution of wealth  
and fall of capitalism

take care  
of  
household  
chores

unfold for the final scene >

love whatever form my  
next generation is in
