

## INITIATIVE 328

I, Sam Reed, Secretary of State of the State of Washington and custodian of its seal, hereby certify that, according to the records on file in my office, the attached copy of Initiative Measure No. 328 to the Legislature is a true and correct copy as it was received by this office.

Be it enacted by the People of the State of Washington: that a 2 (%) percent be given for the creation of a true healthcare plan that would benefit the elderly, single mothers, and their dependent children and anyone in need.

Let it be known that all this 2 % shall come from the pharmaceuticals, drug producing companies and any health insurance company that is doing business in the state of Washington. Also this program must include 2 % from the sale of tobacco and all alcoholic beverages. All of these entities would give 2 % of their profits for the creation of a healthcare comprehensive program that would benefits citizens in need.
